### **Parking Lot Expansion to Begin at Cosby Lake**

The City of Clay will begin a new parking lot expansion at Cosby Lake this week. Construction equipment is already on site and plans are in place. The expansion will be at the north end of the lake, close to the Steeplechase subdivision entrance.

“We are excited to give our residents and visitors more parking spaces at Cosby Lake. Many people frequent the area, and by increasing parking, even more people can enjoy the lake, walking trails, and picnic areas,” said Mayor Charles Webster.

The City of Clay asks those visiting Cosby Lake during construction of the new parking lot to avoid the dirt and grass areas where equipment will be in use and people will be working.

“During the expansion, we ask everyone to park only on the asphalt parking lots and stay clear of the construction area. It not only keeps everyone safe, but also avoids any harm to vehicles,” requested City Manager, Ronnie Dixon.

The goal for the completion date is summer 2017 considering the weather cooperates with the construction project.
